Our Curriculum

Talk for Writing and Talk for Reading

Talk for Writing is a teaching framework that enables children to imitate the language they need for a particular unit orally, before reading and analysing it and then writing their own versions.

Talk for Reading compliments our Talk for Writing approach, enriching and interweaving throughout our writing curriculum. Talk for Reading focuses on developing comprehension structured in a way that supports children to read critically, appreciatively and confidently. This approach, like Talk for Writing uses the gradual release of responsibility model, supporting children in becoming independent readers.
